

**P2P.SYSTEMS**

## **P2P.Systems - Areas of Expertise**

We deliver **tailored-made blockchain solutions**: training, software development, projects review, consulting, software/business/legal advisory, technical writing, and knowledge-sharing videos.

**P2P.Systems Team:** Tomasz Kurowski, Tomasz Korwin-Gajkowski, Jacek Sieradzki, Adam Kotucha, Wojciech Kwiatek.

### **Blockchain**

- ❖ Blockchain and cryptocurrency fundamentals. Private (consortium) vs Public blockchains.
- ❖ The economic and social motivation behind the blockchain technology.
- ❖ Practical business use cases across different sectors (e.g., fund industry, energy or administration).
- ❖ Blockchain and Distributed Ledger Technologies technical details:
  - Symmetric/asymmetric encryption, hash functions, mining, consensus algorithms, digital signatures

### **Cryptocurrencies**

- ❖ Initial Coin Offering (ICO) advisory and projects review.
- ❖ Legal aspects of blockchain and cryptocurrencies.
- ❖ Altcoins (alternative coins, e.g., NEM, ETH or NEO).
- ❖ Cryptocurrency wallets and asset storing.

### **Smart Contracts**

- ❖ Ethereum and other decentralized application platforms.
- ❖ Smart Contracts theory and practice (development, building, business logic).
- ❖ Notarization using blockchain (timestamping, files immutability).
